# LANCE-MOI EN L'AIR (30 mn)

CHOREOGRAPHED CIRCUS

---

*Lance-moi en l'air* is a choreographed circus piece centered around contact, where bodies slide over each other, throwing themselves or falling in the same surge of confidence and sensuality. *Lance-moi en l'air* explores the connections between two beings, the fragility of human relationships, their balance, their contradictions, their energies.

Humaneness emerges from the alternation of strength and weakness, and the acrobatic prowess speaks of the other's body. The one who throws himself, the one who propels, the one who springs out, the one who is thrown in the air, the one who absorbs the shocks, the one on which one leans, who catches or throws, the one who offers his whole body.

A game of « flee me and I'll flee » which talks about life, its encounters, its conflicts, reconciliations and betrayals.

*Lance-moi en l'air* speaks to adults and children alike through the instinctive energies it communicates.
